

Apprenticeship Starter Pack Order

To let you try your hand at making rosettes, we have our ‘apprenticeship’ starter pack. This has clear instructions and will teach you how to make quality rosettes. There is material to practice with and it will give enough supplies to leave you with 6 quality rosettes you can show potential customers. The idea behind the kit is to let you see how easy it is to make quality rosettes you can be proud of, and give you the confidence to move on with your new business. To keep the cost to a minimum we have limited the colours. If you want any variation to the kit it will cost extra.

Just fill in the order form with what you want on the centre board of the rosettes. Only one design is included in the price.

You will receive enough supplies to have a practice and then make 6 rosettes. You should then have a good idea whether rosette making is something you would like to do.

Centre placing or motif	Ribbon Colour outer tier	Ribbon Colour middle tier	Ribbon Colour inner tier	Colour of centre	Wording for the rosette centre, Top/Bottom Maximum 25 characters in total
1st (Example)	Red	White	Blue	Red	top ROSETTES OF QUALITY bottom BY EDITH JONES

Apprenticeship Starter Pack Order

We have kept the starter pack price as low as possible.

On the DVD you will have seen the rosettes being made using the metal formers. Many of our customers do prefer to sew the ribbon onto the card, but we think using formers is the quickest way of making high quality rosettes.

If you want to try the formers you can order them here and if you decide not to continue making rosettes you can return them within 4 weeks and you will be refunded £43.35

The old record player turntable is not included but you can easily get one from a boot sale if you don't already have one. You will need a glue gun if you are going to use the formers. We sell commercial quality glue guns if you need one.
